NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2010

1 GENERAL INFORMATION

Vinda International Holdings Limited (the “Company”) was incorporated on 17 August 1999 in the Cayman Islands with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands.

The Company acts as an investment holding company and provides management services to its subsidiaries. The Company and its subsidiaries are collectively referred to as the “Group”.

The Company’s shares have been listed on The Stock Exchange of Hong Kong Limited (“HKSE”) since 10 July 2007.

The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands.

These consolidated financial statements are presented in Hong Kong dollar (“HK\$”) unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors on 30 March 2011.

2 BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”). The consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies.

3 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

(a) Prior year adjustment — changes in accounting policies

In November 2010 the HKICPA issued Hong Kong Interpretation 5 “Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause”. The Interpretation is effective immediately and is a clarification of an existing standard of the HKICPA that a term loan which contains a clause which gives the lender the unconditional right to demand repayment at any time shall be classified as a current liability in accordance with paragraph 69(d) of HKAS 1 irrespective of the probability that the lender will invoke the clause without cause.

In order to comply with the requirements of Hong Kong Interpretation 5, the Group has changed its accounting policy on the classification of term loans that contain a repayment on demand clause. Under the new policy, term loans with clauses which give the lender the unconditional right to call the loan at any time are classified as current liabilities in the balance sheet. Previously such term loans were classified in accordance with the agreed repayment schedule unless the Group had reason to believe that the lender would invoke its rights under the immediate repayment clause within the foreseeable future.

The new accounting policy has been applied retrospectively by re-presenting the opening balances at 1 January 2009, with consequential reclassification adjustments to the comparatives for the year ended 31 December 2009. The reclassification has had no effect on reported profit or loss, total comprehensive income or equity for any period presented.

Effect of adoption of Hong Kong Interpretation 5 on the balance sheet

Bank borrowings	<u>(85,500,000)</u>	<u>(247,345,217)</u>	<u>(157,856,113)</u>

(b) New and amended standards adopted by the Group

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2010.

- HKFRS 3 (Revised), ‘Business combinations’, and consequential amendments to HKAS 27, ‘Consolidated and separate financial statements’, HKAS 28, ‘Investments in associates’, and HKAS 31, ‘Interests in joint ventures’, are effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009.
- HKAS 27 (Revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value, and a gain or loss is recognised in profit or loss. HKAS 27 (revised) has had no impact on the current period, as none of the non-controlling interests have a deficit balance; there have been no transactions whereby an interest in an entity is retained after the loss of control of that entity, and there have been no transactions with non-controlling interests.
- HKAS 17 (Amendment), ‘Leases’, deletes specific guidance regarding classification of leases of land, so as to eliminate inconsistency with the general guidance on lease classification. As a result, leases of land should be classified as either finance or operating lease using the general principles of HKAS 17, i.e. whether the lease transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee. Prior to the amendment, land interest which title is not expected to pass to the Group by the end of the lease term was classified as operating lease under “Leasehold land and land use rights”, and amortised over the lease term.

HKAS 17 (Amendment) has been applied retrospectively for annual periods beginning 1 January 2010 in accordance with the effective date and transitional provisions of the amendment. The Group has reassessed the classification of unexpired leasehold land and land use rights as at 1 January 2010 on the basis of information existing at the inception of those leases, and recognised the leasehold land in Hong Kong as finance lease retrospectively. As a result of the reassessment, the Group has reclassified certain leasehold land from operating lease to finance lease.

The land interest of the Group that is held for own use is accounted for as property, plant and equipment and is depreciated from the land interest available for its intended use over the shorter of the useful life of the asset and the lease term.

The reclassification has had no effect on reported profit or loss, total comprehensive income or equity for any period presented. The effect of the adoption of this amendment on the balance sheet is as below:

	As at 31 December 2010 HK\$	As at 31 December 2009 HK\$	As at 1 January 2009 HK\$
(Decrease)/Increase in			
Leasehold land and land use rights	<u>(13,577,053)</u>	<u>(13,501,956)</u>	<u>(13,913,843)</u>
Property, plant and equipment	<u>13,577,053</u>	<u>13,501,956</u>	<u>13,913,843</u>

(c) New and amended standards, and interpretations mandatory for the first time for the financial year beginning 1 January 2010 but not currently relevant to the Group (although they may affect the accounting for future transactions and events)

HK(IFRIC) 17	Distribution of non-cash assets to owners
HK(IFRIC) 18	Transfers of assets from customers
HK(IFRIC) 9	Reassessment of embedded derivatives and HKAS 39, Financial instruments: Recognition and measurement
HK(IFRIC) 16	Hedges of a net investment in a foreign operation
HKAS 1 (Amendment)	Presentation of financial statements
HKAS 36 (Amendment)	Impairment of assets
HKFRS 2 (Amendment)	Group cash-settled share-based payment transactions
HKFRS 5 (Amendment)	Non-current assets held for sale and discontinued operations

(d) New standards, amendments and interpretations have been issued but are not effective for the financial year beginning 1 January 2010 and have not been early adopted.

	Effective date
HKAS 12 (Amendment) Income tax	1 January 2012
HKAS 24 (Revised) Related Party Disclosures	1 January 2011
HKAS 32 (Amendment) Classification of rights issues	1 January 2011
HKFRS 9 Financial Instruments: Classification and measurement	1 January 2013
HK (IFRIC) 14 Prepayments of a Minimum Funding Requirement	1 January 2011
HK (IFRIC) 19 Extinguishing Financial Liabilities with Equity Instruments	1 January 2011

Amendments and interpretations as mentioned above are not expected to have a material effect on the Group's operating results, financial position or comprehensive income.

Apart from the above, the HKICPA has issued the third annual improvements project (2010) in May 2010 which sets out amendments to a number of HKFRSs primarily with a view to remove inconsistencies and to clarify wordings. The Group has not applied the following revised HKFRSs published in the third annual improvements project.

	Effective date
HKFRS 3 (Revised) Business combinations	1 January 2011
HKFRS 1 First-time Adoption of Hong Kong Financial Reporting Standards	1 January 2011
HKFRS 7 Financial Instruments: Disclosures	1 January 2011
HKAS 1 Presentation of Financial Statements	1 January 2011
HKAS 34 Interim financial reporting	1 January 2011
HK (IFRIC) — Int 13 Customer loyalty programmes	1 January 2011
HKAS 27 Consolidated and separate financial statements	1 July 2011

The Group is in the process of making assessment of the impact of these new or revised HKFRSs upon initial adoption, while it is not expected that the adoption of these new or revised HKFRSs will have a significant impact on the Group or the Company's financial statements.

4 SEGMENT INFORMATION

The Group is principally engaged in the manufacture and sales of household consumable paper. Revenue is analysed as follows:

	For the year ended 31 December	
	2010	2009
	HK\$	HK\$
Sales of goods	3,430,308,055	2,612,936,594

	<hr/>	<hr/>
Total revenue	<u>3,602,168,770</u>	<u>2,776,116,529</u>

The chief operating decision-maker has been identified as the executive committee, which comprises all executive directors and top management. The decision-maker reviews the Group's internal reporting in order to assess performance and allocate resources.

Based on these reports, the executive committee has determined that no business segment information is presented as over 90% of the Group's sales and operating profits are derived from the sales of paper products, which is considered as one business segment with similar risks and returns.

The executive committee has also determined that no geographical segment information is presented as about 88% of the Group's sales are derived within the People's Republic of China (the "PRC") and over 90% operating assets of the Group are located in the PRC, which is considered one geographic location with similar risks and returns.

The Company is domiciled in Hong Kong. The result of its revenue from external customers in Mainland China, Hong Kong and other overseas is HK\$3,186,738,815 (2009: HK\$2,398,014,521), HK\$392,717,315 (2009: HK\$343,736,896), HK\$22,712,640 (2009: HK\$34,365,112) respectively.

On 27 September 2010, the Company, Fu An International Company Limited (a substantial shareholder of the Company, “Fu An”) and Li Chao Wang (a director of the Company) (together, “the Vendors”) and the Placing Agent entered into an agreement. Pursuant to which, the Placing Agent agreed to place 32,500,000 existing shares, at the placing price of HK\$9.50 per share owned by the Vendors, to independent investors.

After the placing was completed, the Company issued 28,500,000 new shares on 8 October 2010 (3.0% of the total share capital issued then outstanding) to Fu An. The shares issued have the same rights as the other shares in issue. The fair value of the shares issued amounted to HK\$270,750,000 (HK\$9.50 per share). The related transaction costs of HK\$6,835,044 have been netted off with the actual proceeds.

As at 31 December 2010 and 2009, the par value of authorised and issued ordinary shares is HK\$ 0.1 per share.

MANAGEMENT DISCUSSION AND ANALYSIS

The recovery path for the global economy in 2010 was full of twists and turns. Thanks to the PRC government's effective strategy of propelling domestic demand, the Chinese economy managed to maintain "stable and relatively rapid development" against the backdrop of a complex domestic and international environment. In 2010, total national retail sales of consumer goods increased by 18.4% while the per capita disposable income of urban residents grew by 11.3%, underscoring promising prospects for the mid-to high-end household paper market.

Strong Sales Growth and Continuous Product Mix Optimization

With strong consumer sentiment in the PRC economy, sales of the Group attained growth of nearly 30% in 2010. By optimizing the product mix, the Group recorded a double-digit net profit margin.

Sales of toilet rolls grew by 26.9%, accounting for 61.1% (2009: 62.4%) of the Group's total sales. Sales of handkerchief tissue, box tissue, softpack and wet tissue, which are targeted at mid-market and up-market consumers, posted year-on-year growth of 39.5%, accounting for 34.2% (2009: 31.8%) of the Group's total sales. Sales of the products under the "Pleasant Goat Series" accounted for approximately 8% of the Group's total sales.

On the other hand, the Group has been studying how to diversify into the personal care product business in recent years. In 2010, the Group formulated collaboration plans with competent OEM manufacturers, set up a professional market research and production management team and established an investment platform via an associated company, V-Care Holdings Limited ("V-Care"), to pave the way for the development of personal care products. Since February 2011, V-Care has completed the trial OEM production of its first batch of baby diapers and the market roll-out of the product is expected in the second half of the year. Targeting mid- and up-market customers, V-Care has laid a solid foundation for the long-term profit of the Group.

Strengthened Sales Network for Sustainable Development

During the year, the Group continued to expand its sales network, with 141 sales offices (2009: 125) and an increase in the number of distributors to 856 (2009: 715) by the end of 2010. With a healthy and strong distribution network, we have good reasons to believe the Group can sustain business growth. We not only work in close cooperation with distributors, outlets and direct clients to boost our retail performance, but also put effort into supporting our distributors and partners, actively sourcing new clients and enhancing market coverage of our products.

To the mutual benefit of the Group and our clients, we have been enhancing our existing enterprise resource planning (ERP) system for information management. Based on the data provided by professional market research partners, we monitor the market closely and react responsively to real-time market information, in order to ensure the healthy development of the overall business in the long term.

Stepped up Promotions and Beefed up Brand Image

Vinda's brand strength has always been a competitive edge for the Group. During the year, the Group stepped up efforts to promote its brand. Under the theme of "apply bliss to your skin with a ply of comfort" (柔韌一張、幸福主張), the Group launched a series of promotional activities in various media and at image stores to present the extraordinary brand image and product quality to a wider range of consumers. Besides placing creative advertisements in conventional media such as television and on public transport, the Group also successfully utilized internet resources to strengthen

its interaction with consumers, particularly office-ladies, young people, children and online consumers. It also enhances the penetration of Vinda's products through use of its corporate website, microblog and online games. The innovative and eye-catching marketing campaign, DIY our Sweet Tissue Box, was one such success.

Measures against Pulp Cost Hike

Wood pulp prices in the international market have continued to bounce back since mid-2009 and hit new high in 2010. Chile and Finland, the two major wood pulp markets accounting in aggregate for an approximate 10% share of the world market, have both experienced supply disruptions due to an earthquake and labor strikes during the year under review. These led to a further increase in wood pulp prices of approximately 50% on a year-on-year basis and a surge in costs in the household paper industry. In view of this, the Group adjusted the prices of its products several times during the year while reducing sales of its premium packages and successfully offset part of the adverse impact from fluctuations in wood pulp prices. On the other hand, persistently high wood pulp prices have contributed to industry consolidation by forcing the closure of small players who could not endure the escalating raw material costs. This, coupled with the determination of the PRC government to enforce its environmental policies, created more room for the Group to grow.

Systematically Expanding Production Capacity and Preparing to Boost Sales

Sales volume of the Group's paper was 281,814 tons in 2010, representing an increase of 25.7% as compared with the previous year. The Group continued to expand its production capacity systematically during the year and increased its annual total capacity to 370,000 tons, including the 50,000 tons of additional capacity from the Hubei production base. For 2011, the Group plans to expand the capacity of its production bases in Liaoning and Sichuan by 25,000 tons each and by 50,000 tons in Zhejiang. The Group anticipates that its total annual capacity will reach 470,000 tons by the end of 2011. This will help the Group to be prepared for a surge in demand and to further reduce logistic costs and enhance economies of scale.

Consistently Improved Operational Efficiency

In 2010, the Group consistently adhered to the management concepts of "high quality, low wastage and high efficiency" and reiterated its target of achieving "safety, environmental protection, quality and cost reduction" in its production. During the year, the Group made significant progress in technical advancement, efficiency improvement, energy saving and emissions reduction. The Group obtained and filed approvals related to the application of 31 technical patents in total during the year. Capitalizing on such techniques, the processing efficiency of our factories was raised by over 15%. With regards to environmental protection, the Group continued to implement and reinforce its policies on energy saving and emissions reduction and successfully reduced water and steam energy consumption per ton of paper by 30% and over 3% respectively. With respect to production consumption controls, the policy to "reduce waste by 1%, increase utilization by 0.1 mm or 0.1 gram and save 10 minutes of energy" started to take effect. Wastage at our plants was further reduced, making the increase in production costs slower than that of raw material prices.

Human Resources and Management

Our high-caliber employees are key to the Group's sustainable development and its ability to compete in the industry. We have always emphasized the importance of management and provided ample advancement opportunities for outstanding management staff. In the first half of the year, we had the pleasure and honor of our Chief Executive Officer, Ms. Zhang Dong Fang, joining us and leading

us to new heights. Moreover, the Group launched its first management trainee program, under which we assigned graduates from different disciplines and universities to various departments to groom fresh management talent with the right qualifications and expertise.

As at 31 December 2010, the Group had 6,196 staff members (2009: 5,351). The increase was attributable to the organic growth of the Group's business and resulted in a stable rise in remuneration expenditure. Staff remuneration packages are reviewed from time to time, taking into account local market conditions, individual experience and performance to ensure the competitiveness of the Group's remuneration policies in the industry.

Foreign Exchange Risk

The majority of the Group's assets and sales business are located in the PRC and Hong Kong. Most of our transactions are denominated and settled in RMB while most of the key raw materials are imported from overseas and denominated and paid in US dollars. The Group also maintains US-dollar trade finance and HK-dollar medium- to long-term bank loans in order to benefit from lower interest rates than that of RMB for the majority of its financing. As at 31 December 2010, the Group has not issued any material financial instruments. Save for the above, the Group has not entered into any instruments for hedging purposes.

Share-Based Payment

As approved by the Board on 24 February 2009, 27,546,000 share options were granted to the directors and certain employees at an exercise price of HK\$2.98 per share. The Group has no legal or constructive obligation to repurchase or settle the options in cash. The options are exercisable during the following periods:

- (i) with respect to the options granted to the directors, on or after 24 February 2009;
- (ii) with respect to the options granted to the employees,
 - (a) up to 20% on or after 24 February 2010;
 - (b) up to 50% on or after 24 February 2011;
 - (c) all the remaining options on or after 24 February 2012;and in each case, no later than 23 February 2019.

In February 2009, all the directors and employees accepted the share options.

On 15 April 2010, 3,000,000 share options were granted to a director at an exercise price of HK\$5.42 per share. The Group has no legal or constructive obligation to repurchase or settle the options in cash. The options are exercisable during the following periods:

- (a) up to 33% on or after 15 April 2010;
- (b) up to 67% on or after 15 April 2011;
- (c) all the remaining options on or after 15 April 2012;

and in each case, no later than 14 April 2020.

In April 2010, the director accepted the share options.

Future Prospects

Challenges breed opportunities and every cloud has a silver lining. 2011 is the start of China's 12th Five-Year Plan. We anticipate that the Chinese economy will continue to exhibit a positive growth momentum. We also believe the Central Government will continue to implement more stringent environmental protection measures and that wood pulp will continue to trade at high levels.

In the coming year, the Group will keep upgrading its operational efficiency and remain committed to quality. In the meantime, we will actively develop our sales network and put more effort into promoting our goods to bring our brand image to the next level. With our solid brand presence and foundation, we believe that the Group will be able to maintain its leading position in the industry.

In 2011, we will focus on the following strategies:

1. step up efforts to build the brand and strengthen marketing to create star products with unique and attractive features; perfect our product mix for higher profitability; source new income streams by nurturing the health care product business;
2. maintain our well-established partnerships with wood pulp suppliers and centralize purchasing and procurement to raise the bargaining power of the Group; closely monitor and evaluate wood pulp quality from domestic suppliers so as to allow greater flexibility in choosing raw materials without jeopardizing the quality of Vinda's products;
3. continue to expand production capacity in a systematic manner and to promote production safety standards, with a medium- to long-term output goal of 700,000 tons of paper;
4. adhere to the principle of environmental protection through automation; and
5. further optimize the management of information system.

Liquidity, Financial Resources and Bank Loans

The Group's financial position remained healthy. As at 31 December 2010, the Group's bank and cash balances (including pledged bank deposits of HK\$45,689 (2009: HK\$760,931)) amounted to HK\$389,597,471 (2009: HK\$347,710,038), and short-term and long-term loans amounted to HK\$1,087,677,371 (2009: HK\$863,222,792). 48.8% of the bank borrowings are medium- to long-term (2009: 40.6%). Approximately 2.7% (2009: 0.16%) of the sum carried fixed interest rate. The annual interest rates of bank loans ranged from 1.29% to 5.76%.
